SANITABY.—By late advices from the East we learn that the cholera is still on its march Westward. The rapid ad-vance in our direction of this devasta-ting disease affords good cause for alarm in the minds of all. Its spread has not, so far, been successfully contested.— Like a simoon it has swept over nearly half of Europe already—and no halt in its step yet. Many learned men predict that it will visit our shores. In view of this it will not do to rest with wishes that it will not do to rest with wishes that it will not come. It is idle to trust to hope, and supinely allow what can wholly or partly be prevented. Shall we cast ourselves under the wheels of this Juggernaut? It will certainly not be acting the part of rational men to make no show of defense against the malady. The question is: in what, and where, does the remedy lie? We answer that much can be insured to us in the proper exercise of sanitary measures. It behooves all to interest them. serves in this matter. As we have dis-banded armies in a fortugate covered, from observation, there is RIVER NEWS.—Yesterday the river scarcely a portion of our city—in its was rising rapidly with seven feet and yards-who there is not an accumulayards—who there is not an accumulation of fitth, which, in case the cholera takes a start among us, will prove to be so many breeders of pestilence. Our citizens owe it to themselves, and should at time. The Lent Lent came up and left time. The Lent Lent came up and left time. CIRCUIT COURT—Isadge Caldwell precases, the subjects of which are now in siding.—Circuit Court met at 3 o'clock on Saturday morning and held but a court this morning. on Saturday morning and neid but a half day's session, when the case of John Schmidt, charged with the murder of Elizabeth Schmidt, on the 2d of May last, was concluded. After the case was finally given to the jury they redired to their room, and in about twenty minutes brought in a verdict of "guilty" J. S. Scofield was at the McLure House of murder in the second degree," and sentenced the accused to fifteen years' imprisonment in the penitentiary. This was considered by many as a light pun-ishment for the offence charged, as most of those among the speciators whom we heard express an opinion thought Schmidt would receive the death pen-alty. The prisoner received his sen-tence with evident indifference, preserving that stolid composure which he exhibited throughout the trial.

The following business was also dis-posed of during the day: Robert Burkitt was appointed guar dian of the children of James Burkitt. He gave a bond of \$500, with James Brown as his security.

Jacob Zillas was granted naturaliza-

tion papers. Court meets this morning at 9 o'clock. when the celebrated Maxwell will case will come up. We have spoken of this case before. There are over 40 witnesses summoned on it.

PROF. MACALLISTER.—This popular performer gave another of his interesting exhibitions at Washington Hall on Saturday evening, after which he distributed to the audience a hundred presents. Mrs. Catharine Rapp, living on the corner of Sprigg House alley, where the best of boots, shoes and gaiters can be had. Everything usually kept in a first class boot and shoe emporium, in full supply. Both members of the new firm are well known here as energetic, thorough going business men. Good Enough to be Told.—We have heard of a joke which happened at one of our express offices recently, and we consider it good enough for our readers.

A son of the Emerald Isle, it appears, permanently cure all the "thousand and permanently cure all t cost to express a corpse to a certain Read the following extract from "a letter" point. He was told the price and asked where the body was. The Celt replied: One of t "the man isn't dead yet, but he wanted to know incase he would need the trans-portation." This rather sold the exportation. This rather sold the express agent for the time being. Next day who should appear but the interlocuter of the day before, accompanied by four brawny comrades carrying a corpse. The son of Erin remarked that there now was the corpse, and he want-ed it sent to its destination. When asked why he hadn't brought it the day be-fore he replied, "Arrah, be aisy, new. He was an honist man, an' niver de caived any one in his life, an' it wasn't

his fault that the corpse wasn't ready."

THE WEATHER.—Saturday and yes The Weather.—Saturday and yesterday were remarkably pleasant days; in beautiful contrast with the few preceding ones. The sun shone brightly, and the air was bracing. All day yesterday the streets were alive with persons who seemed disposed to take advantage of the change in the weather.—The churches were largely attended, one characteristic of the lady church goers being the display of heavier clothing in the way of shawls, cloaks, &c. These articles of wear, with gentlemen's over coats, are rapidly becoming popular just now, and frequently to be seen on the streets.

THE BALTIMORE AND ORIO ROAD. A newspaper correspondent who is traveling with the English tourists made a trip with them the other day over the east end of the Baltimore and Ohio road. He was captivated with the scenery no less than with the wonder-ful energy shown by the company all through the war and since the return of peace. He alludes to the frequency with which the road changed possess-ion—being one week within the Federa lines and the next week held by th rebels. He notes the wrongs to which it was subjected by the enemy, who burned and blew up its great and expensive bridges—tore up its track— twisted its rails—destroyed its rolling stock—exploded its culverts, its water

One of the first ladies in Utica, N. Y., called upon my agents in that city (Mr. Wm. Bristol & Co), and told them that she, of course, did not wish her name made public, but if any one should doubt the wonderful efficacy of Dr. Duponeo's Golden Fills, they might refer any lady to her, as she considered it a duty as well as a pleasure, to relate her knowledge of their efficacy, as administered to her daughter, a young lady seventeen years old. She was fast going into consumption—had taken cold—nature became obstructed. Two boxes of these Golden Fills entirely curred her, and she is sow in robust leath.
